Mānia

Meaning and narrative of the name Mānia

The location of the Mānia development is within the claim area of Hapakuku Kairua, and on the soils and aggregate formed by a former flow of the Waimakariri River as it arced around and linked to the course now occupied by the Huritini/Halswell River. The river trail has intermittent evidence of the use of the river course as a trail and for mahinga kai, prodomenantly in the form of nohoanga and food refuses. This locality is also positioned within the west portion of formerly vast expanse of open plains dominated by native grasses and ferns, that bordered the western most portion of environs that became west Christchurch. The evidence denoting former open plains dominated by fern and native grasslands appears on the earliest European survey maps of the mid-19th century. To acknowledge the resources and environs once utilised by Māori ancestors, use of Māori names for features such as Grasses/**Mānia**, Ferns/Arrhe and plan-lands/Pākihi have been gifted by Te Ngāi Tūāhuriri Rūnunga to this Ngāi Tahu Property development.

About Ngāi Tahu Property

With a market value approaching \$600 million, Ngāi Tahu Property is a professionally managed business, with a proud commercial and cultural history. Established in 1994, Ngāi Tahu Property is one of the largest property investors and developers in Te Waipounamu – the South Island of New Zealand with a range of successful residential, commercial and industrial developments.

1994 Ngāi Tahu Property Limited is incorporated in anticipation of the opportunity to leverage and grow the Crown Settlement. The Chief Executive is appointed as the company's first employee.

1998-1999 Ngāi Tahu settles its Waitangi Tribunal Claim with the Crown. Economic redress comprises a cash payment of \$170 million along with mechanisms that give Ngāi Tahu the right and opportunity to buy certain Crown assets (the Deferred Selection Process and the Right of First Refusal). Independent analysis by CS First Boston had valued the economic losses to Ngāi Tahu from the Crown's land purchases of last century at more than \$20 billion.

1999 This financial acknowledgement has allowed the tribe to establish itself as an economic powerhouse within the South Island. Ngāi Tahu uses its \$170 million settlement along with borrowings of \$80 million to procure the inaugural parcels of land from the Crown for the company. This included three High Country Stations, Courts and Police Stations throughout the South Island (long-term Crown tenants) and Crown forestry assets.

Late 1990's Archeron Drive, Christchurch 26 lots located off Blenheim Road, Christchurch.

2000's Sockburn Business Park 23 lots in an established area of Christchurch. Catered for owner-occupier businesses wanting medium-sized buildings.

2013 A key milestone is achieved with the value of assets under management exceeding \$500 million.

2015 Wigram Business Park, 52 lots for firms which were expanding, relocating or re-establishing their businesses post-earthquakes.

2016 Twenty years after inauguration as a company, Ngāi Tahu Property has grown the value of its assets to approx \$500 million. These include residential master-planned developments, commercial, retail and industrial property, and a substantial investment portfolio.

2019 The Ngāi Tahu Group reaches net worth of \$1.4 billion and total assets of \$1.7 billion. As a Charitable Trust, profits made by the group are directed back to the iwi for distribution.

Our Values

Personal integrity, respect and acknowledgment of the cultural heritage that comes from being part of the wider Ngāi Tahu group are an important foundation for the Ngāi Tahu Property team. We align with and commit to these shared values.
